## 01 DairyNetBox

## 02 DairyNetBox\_etusivu

**Modern features for Smart Farming at the next higher level**

GEA DairyNet's interactive design offers modern and comprehensive functionalities for daily management, planning, documentation and analysis tailored to milk production requirements.

## 03 DairyNetBox\_performance

**Events, tasks, performance**

Well-designed graphics display relevant operational incidents, procedures and milk performance numbers. Clearly structured overviews allow you to assess the current situation, organize upcoming tasks and quickly recognize current trends.
